HAVING recently received an extensive stock, and daily adding to it the latest styles of

SPRING GOODS,

Together with an enormous stock of DOMESTICS, purchased in the Fall at very low figures, with a view of being prepared for the EARLY SPRING TRADE, without being subjected to the exorbitant rates of Rail Road charges on such goods as are sold at a fraction above Eastern cost, we are prepared to show, and will be most happy to sell the

MOST COMPLETE AND EXTENSIVE STOCK OF
DRY GOODS,
Ever before offered in the West!

Being connected with several large manufacturing establishments and importing houses at the East, giving us an advantage over any other Mercantile House in the State, and having long resided and done business in this city, and our established principles of doing business being well known to every city and country customer, to be of the most liberal nature, we flatter ourselves that we can say with safety that we consider competition quite out of the question.

We would say to
COUNTRY MERCHANTS
who design going East to purchase, that we would esteem it a favor if they would honor us with a call before leaving for New York and Boston, as we feel quite confident that we can convince them that it is to their interest to purchase in Milwaukee.

THE proprietors of the Milwaukee Commercial College would respectfully announce that the liberal patronage that has been extended to this deservedly popular enterprise has led them to extend the field of study, so that it will embrace every branch of a thorough Commercial Education. As there are no classes formed in any department of study—(thereby enabling the student to enter any time, each one receiving separate instructions)—the student, on entering, is placed in the Counting Room, with actual transactions to work from, thus making his education not merely theoretical, but practical to the last degree. The Commercial Course comprises Book-keeping by Double Entry, in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, in stock partnership, and compound Company business, Commercial calculations in percentage, Exchange, Bank and Regular Discounts, averaging, accounts by Simple and Compound Equations, &c., according to the most approved methods. Commercial Correspondence, including account sales, account currents, drafts, bills of exchange, &c., &c.

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A good Hand Writing guaranteed to every person completing a full course.

During the Season, Lectures on Commercial Law will be delivered by eminent legal and business men, and no pains will be spared to make this department particularly attractive.

Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Friday Morning, July 25.

FOR FREE KANSAS—FREE PRESS—FREE SPEECH—FREMONT!

FOR PRESIDENT,
JOHN C. FREMONT.

FOR VICE-PRESIDENT,
WILLIAM L. DAYTON.

FOR ELECTORS,
State at Large { EDWARD D. HOLTON. TIMOTHY O. HOWE.

"I REPEAT THAT I NEVER CAN AND NEVER WILL VOTE, AND NO EARTHLY POWER WILL EVER MAKE ME VOTE, TO SPREAD SLAVERY OVER TERRITORY WHERE IT DOES NOT EXIST."—Henry Clay.

"The freemen of the North have a deep interest in keeping labor free, exclusively free, in the new territories. * * * * I have made up my mind, for one, that, under no circumstances, will I consent to the further extension of the area of slavery in the United States, *or to the further increase of Slave representation in the House of Representatives.*—Daniel Webster.

"*I heartily concur in all movements which have for their object to repair the mischief arising from the violation of good faith in the repeal of the Missouri Compromise. I am opposed to Slavery in the abstract, and upon principle, sustained and made habitual by settled conviction. While I feel inflexible in the belief that it ought not to be interfered with where it exists under the shield of State sovereignty, I am as inflexibly opposed to its extension on this continent beyond its present limits.*"—John C. Fremont.

"FREE LABOR—THE NATURAL CAPITAL WHICH CONSTITUTES THE REAL WEALTH OF THIS GREAT COUNTRY, AND CREATES THAT INTELLIGENT POWER IN THE MASSES ALONE TO BE RELIED ON AS THE BULWARK OF FREE INSTITUTIONS."—John C. Fremont's *Letter of Acceptance.*

The "Sentinel" for the Campaign.

As many persons may be desirous to obtain the *Sentinel* for the Campaign, without ordering it for the full term of a year, we publish the following rates, at which we will send one or more copies of our several editions, from July 15th to December 1st. As the Election occurs Nov. 4th, this ought, in these days of telegraphs, to enable us to give the result in all of the States of the Union except California, in the last number.

Daily,	$2 50
Tri-Weekly,	1 25
Weekly,	37½

The above rates for the Daily and Tri-Weekly are somewhat less than our regular terms. For the Weekly they are the same as $1 per year. Circulate the Documents.

The News a K. N. Organ.

The *News*, of Wednesday, opens its columns to the communication of an anonymous, but zealous Know Nothing, who is anxious to call a Convention and nominate a Fillmore Electoral ticket in this State. The *News* even goes so far as to certify for the author, and would, no doubt, on a pinch, help him to get up a Convention.—Nevertheless, it advises him to abandon this plan of starting a third ticket, and go in for Buchanan. The advice is good. The proposed alliance is a natural one, and there is no reason why Know Nothings and Democrats should not unite openly, as they have long since done in secret. Each prefers the success of the other, to that of the Fremont men, and they labor very lovingly together in the effort to blacken the fame and oppose the election of "the standard bearer of Freedom."

The German Fremont Meeting.—The *News*, with its customary courtesy, charges the *Sentinel* with wilfully misstating the facts as to the meeting of the Germans to form a Fremont Club, and with persisting in the mis-statement after the error was pointed out. Both charges are alike false and impudent. The first paragraph in relation to the meeting was written by our Reporter and based upon information furnished him by a German who was present at the meeting.—Our Reporter misunderstood his informant and spoke of the meeting as having been held on Saturday evening, instead of Sunday morning.—This brief paragraph appeared in Monday's *Sentinel*. In Tuesday's issue there was published an authenticated statement of the proceedings, giving the time, place and circumstances correctly.

State Bank of Wisconsin.—Mr. Eliphalet Cramer having resigned, on the 22d inst., the Presidency of the State Bank of Wisconsin, the vacancy has been filled by the unanimous election of John G. Inbusch, an old and estimable citizen, and one of the leading Directors of the Bank.

The Board, in accepting Mr. Cramer's resignation, passed the following well deserved vote of thanks:

Resolved, That in accepting the resignation of E. Cramer, Esq., as President of this Bank, we take this occasion to express to him our sincere regret that the state of his health should at this time demand a release from the attention and cares incident to that position. Having been principally instrumental in the organization and establishing the Bank in 1853, and its presiding officer since that period, we take pleasure in offering to him our cordial approbation of his faithful administration of its affairs, as well as our appreciation of his merit as an honorable and upright citizen, with whom we are pleased to know that we are to continue our official connection as a Director of the Institution.

By order of the Board,
M. S. SCOTT, *Cashier.*

New Paper at Fox Lake.—We learn that Mr. J. R. Swallow, late of the Beaver Dam *Republican*, is about to start a Fremont paper at Fox Lake, Dodge County. Mr. Swallow will make a good paper. He has been associated with the *Republican*, for some time past, but can't go any longer for Slavery and Sham Democracy.

Printing Ink.—We have recently tried some manufactured by Thompson's P. P. Ink Company at Dubuque, Iowa, and have been so entirely satisfied with the experiment that we cordially commend the article to the notice and use of printers. Mr. J. B. Kenion is the Secretary of the Company and resides at Dubuque.

A Fact which no Fremonter Dare Dispute.—That Gen. James Watson Webb, in the Philadelphia Convention, declared that *if its nominee was not elected, it would be the duty of the Republicans to take arms, and resist the government of the country.*

This sentiment was loudly cheered in the convention, and has not been rebuked by a single republican newspaper.—*Providence Post.*

We find the above conspicuously published in the Oshkosh *Courier*. It is a weak and wanton invention. No such language was used, no such sentiment expressed by Col. Webb, nor cheered in the Convention.

M. & W. R. R.—The Locomotive "Watertown" passed over the new railroad bridge at Watertown, on Tuesday, with a load of iron for the Watertown R. R. It was the first passage over this new structure.

The road is making good progress Westward, and when completed, in its two branches, to Madison and Portage, will be a most busy thoroughfare.

Labor.—The price paid for labor on the Railroad is $1,25 per day, the hands finding their own board. At that high rate even, the contractors find it impossible to procure over half a supply of help.—*Grant County Herald.*

In Rock County farmers are paying *two dollars* a day for harvest hands, and they are hard to get even at that price. The Rail Road contractors, in different parts of the State, offer ten shillings a day and yet cannot find laborers enough. There is plenty of work to do in our State; good wages offered for all kinds of labor, and a great and increasing demand for it.

The Allies Again.

The Know Nothings and Democrats voted together again, in the House of Representatives, on the Illinois and Nebraska contested cases. They were actuated by a common object, the defeat of the Republican contestant, and they acted and voted together to effect it. This union of sentiment and action has characterized the Know Nothings and Sham Democracy ever since Congress met. Indeed, it would not be strange to find the Coalition complete before the ides of November and see both parties marching to the field, under one and the same leader, as the only means of defeating Fremont and ensuring the spread of Slavery.

German Fremont Club of Chicago.

The Germans of Chicago held a large and enthusiastic meeting on Monday evening, and organized a Republican Club and elected the following officers.

A. F. C. Mueller, President.

Gustavus Leverenez, M. Bosse, N. Eisendrath, Vice Presidents.

Chas. Dandorf, Secretary.

The *Democratic Press* says: Fearing the result of the meeting, the pro-slavery democracy called a meeting at the same time at the North Market Hall. They sent all the way to Rochester N. Y., for a speaker, there being no German in the city willing to advocate publicly the doctrine of slavery extension. But few persons attended, and those who were present thought they would go to no more meetings of a like character. A German Democrat assured us that the imported speaker knew very little about the German language, and it was with difficulty his audience could understand him.

Hon. Charles H. Ruggles.—Among other eminent members of the old Democracy, who have espoused the cause of Freedom, we mention with great pleasure the venerable Judge Chas. H. Ruggles. Having been invited to attend a Fremont ratification meeting at Kingston, N. Y. on the 9th instant, he sent the following letter, which was read to the meeting:

Poughkeepsie, July 5, '56.

H. H. Reynolds, Esq.,

Dear Sir—Your note of the 2d instant, inviting me to address a Fremont ratification meeting, at Kingston, on Monday evening next, is received. Regretting that it will be out of my power to be present at the meeting, I beg leave to say, that I heartily concur in its object as announced in the notice, and that I shall vote the Fremont electoral ticket, in the belief that the peace, honor and welfare of the country require that the administration of the General Government should be changed, and that Mr. Fremont should be placed at its head.

With great respect, Yours, &c.,
CHARLES H. RUGGLES.

A California "Gem."—A few minutes before the adjournment of the mass meeting in San Francisco, on the 14th ult., the President, Col. Peyton, displayed the celebrated "double action patent ballot-box," recovered by the Committee of Vigilance. After the enthusiastic and prolonged cheering had subsided, the Colonel said:

"Here is the orator of the occasion. (Cheers.) I beg to introduce you to a harp of a thousand strings. (Tremendous cheering.) I am sorry that I cannot present to you the harpist, Ned McGowan. (Loud applause.) This is the old wooden horse. (Cheers.) It has many curious and ingenious contrivances, and worked by various springs and catches. There are some gentlemen here who understand how to work it, I don't. (Applause.) They know its secret operations and slides. I want you all to understand it. (Some persons here showed the mysteries of the box by drawing the slides and exhibiting the tickets.) This is a powerful machine. It will elevate the meanest vagabond in the country to the highest office in the State. It ought to be sent to Washington, and deposited in the archives of the Union. (Cheers.) Gentlemen, you have now seen the great curiosity, and as other speakers have not arrived, it is moved that we adjourn." The question was put and decided in the negative.

Post the Books.—What an economical Administration is this! How stand the figures?

Here they are from official sources. The expenses are,

$75,684,400, a year!
$6,307,200, a month!!
$1,452,920, a week!!!
$207,660, a day!!!!
$8,600, an hour!!!!!
$144, a minute!!!!!!
$2,40, a second!!!!!!!

What is the guaranty that James Buchanan, if elected, will be any more careful of the people's money than Franklin Pierce has been?

Herbert at Cincinnati.—The editor of the Janesville *Standard* (dem.), who was in attendance at the Cincinnati Democratic National Convention, says, in reply, to a question from the *Free Press*:

Herbert had not a seat in the Cincinnati Convention. During its session he was in the city, and we saw him at the "Burnett House." When we say he had not a seat in the Convention, we mean, of course, as a delegate.

Very likely not. He was there, however, as a sympathizing friend.

The Accident on Lake Ontario.

We find in the Toronto *Colonist* the following particulars respecting the terrible accident which occured on Lake Ontario, near Kingston, and was briefly announced a day or two since by telegraph:

The new propeller Tinto, Capt. Campbell, by some means caught fire off Nine Mile Point, and was burned to the water's edge. She had on board 30 persons, 18 of whom are missing. The following are the names: D. Campbell, master; Alex. Henderson, engineer; R. Lenox, wheelsman; G. March, wheelsman; Louis ——, fireman; T. Baylis, do.; R. Kincaid, steward; a female cook; a female named Sarah; Mrs. Benton, 3 children and nurse; Nicholas Butler, lamp boy; and Louis Charbonneau.

Captain Campbell was seen to jump at the last moment from the wreck, and endeavored to catch hold of a floating fender, but unfortunately missing it, and is supposed to have been drowned. The captain, who leaves a wife and child in this city, was well known, and always bore the character of an honest and industrious man.

The Tinto was on her upward passage. She had only a few passengers, and was loaded with merchandize for Toronto and Hamilton. She was was built during the past season at Sorel, and cost about $36,000. Her owners were Messrs Gibb & Ross, of Quebec and Toronto, whom, it is probable, have her heavily insured. The parties saved were picked up by a boat from Long Island.

Col. Fremont and his Men.

To the Editor of the N. Y. Tribune:

Sir—I have just had a conversation with a reliable gentleman, who has passed considerable time in California. He says that, while there he formed an acquaintance with a man who was in Col. Fremont's company in one of his great exploration campaigns in search of a pass through the Rocky Mountains to the valley of the Pacific.

The narrative of that tour is thus related:

"From the moment that the company was fairly organized Col. Fremont's eye was continually directed to the great object in view, and to the comfort and happiness of his men. He was ever ready, and, indeed, seemed to anticipate their every want. Through the whole survey nothing was more manifest than a determination and capability to meet every emergency with promptness. His men gave their full support to all his plans, as they had no cause for a moment to complain of their faithful leader. In every peril, when life and death became the question, as they daily met the opposing storms of the mountain, Col. Fremont met every obstacle with the greatest perseverance and fortitude. Every day his men became more and more endeared to him. So constantly did they receive his unabating attention, that every day augmented their attachment and good will for their leader, and their perilous situation was half relieved by his only presence.

K. H. Arnold.

Free Soil Democracy of Chemung Awake! Three Hundred and Forty Five Free Soil Democrats of Chemung County have signed a call for a Meeting on the 22d, to send Representatives to the State Convention at Syracuse on Thursday. Martin Grover, of Allegany, and James C. Smith, of Ontario, are to speak. A full half of the Democrats of Chemung repudiate Buchanan and will be found fighting for Freedom and Fremont.—*Albany Eve. Journal.*

Buchanan Stock Rising.—A grand jollification meeting was held the other day at Plover Portage on the occasion of a Buchanan man appearing in town. It was the first one they had seen since the Cincinnati Convention. They have him caged, and have him on exhibition at 25 cents a sight.—*Berlin Courant.*

Late and Interesting from Kansas.

Enforced Quiet in the Territory—Gen. Smith and Col. Sumner—The State Prisoners—Revival of the Herald of Freedom—Gov. Shannon returned to the Territory—Robberies and Plunder of the Mail—Re-building of the Lawrence Hotel—Northern Emigrants Pouring in.

Lawrence, K. T., July 14, 1856.

To the Editors of the Alton Courier:

Tranquility is measurably restored throughout Kansas, and yet we hear constant mutterings which seem to foretell a storm. The Fourth of July passed without a collision, contrary to the expectations of all. The members of the State Legislature thought it not prudent to maintain their God-given rights in defiance of the Federal Government, so they again yielded; or, in the expressive language of *your Douglas*, they permitted themselves to be "subdued," relying for the triumph of the right upon the patriotic voters of the free North, on the fourth of November next.

Gen. Smith has arrived and taken command of the military force in the Territory. Col. Sumner retains command of his division, receiving his orders from Gen. Smith, instead of General Clark, who was stationed at Jefferson Barracks, near St Louis, and has previously had command of this department of the military service.

Military companies are scattered all over the Territory, and I trust will succeed in restoring quiet, though I have strong doubts of their ability to do so, because of their numerical weakness.

The State prisoners are under the charge of Capt. Sacket, of the U. S. Cavalry, a free State man, as are all his company, about 3 miles from Lecompton. They are encamped on a rolling prairie, with deep ravines, skirted with timber on each side, with an abundance of excellent spring water near by, and seem to be enjoying themselves as well as could be expected. They spend their time mostly in reading and writing.

Mr. Brown receives his exchange papers regularly from the Lawrence Post Office, and these afford a rich fund of thought during the week. Their present *jailors* have become more lenient; and permit visitors to call upon them at all hours, and allow them to receive and answer communications from their friends, without undergoing the surveillance of a previous reading. I had a conversation with Mr. Brown a few days ago, in regard to the *Herald of Freedom*. He said be had ordered the press, type, &c., and expected to receive a note from you soon, informing him of their arrival in Alton. He is confident that the mechanical part of the paper had better be executed in your city than in Lawrence, claiming that he can do infinitely more for the cause by thus doing, than otherwise. He says he has been in the receipt of orders from all the principal newsdealers in the cities to supply them regularly with his paper, but has been unable to do so heretofore for the want of express conveyances from Kansas to these points. He thinks thousands of extra copies can be disposed of weekly, by newsboys in the cities, and the influence would be a good one for Kansas. Besides, the idea of getting an office and material up the river at the present time is preposterous. If it should pass Lexington it could not be carried over the road from Leavenworth to Lawrence without destruction. All who know the condition of things here admit the fact, and hence, are the more willing to have it established temporarily at Alton, with the understanding that it will be brought to Lawrence as soon as it is considered prudent to do so.

Governor Shannon returned to the Territory last week from St. Louis, accompanied by his wife. The latter was interrogated as to her views of "Border Ruffians," on her arrival at Lecompton. Her response was, "She thought them infinitely preferable to Massachusetts paupers."

The land office is not yet open, but is expected to be in a few days. The *Register* claims that he is waiting for the return of the Surveyor General.

Robberies continue the order of the day. Mr. Golliday was robbed of his horse, money, &c., a few days ago, south of the Waukarusa, where he had gone from Lawrence on business. These depredations are common all over the Territory, and travelers are unsafe unless accompanied by a stronger escort. The mails are plundered of most of their letters and business is dull.

The Emigrant Aid Company commenced removing the ruins of their hotel last week, preparatory to rebuilding it. Twenty workmen joined in three hearty cheers as they began the work. This will infuse new life into Lawrence, and, in fact throughout the Territory. It says the people are not to be abandoned by capitalists in their extremity.

Emigration continues to pour in constantly overland, through Iowa and Nebraska. A large party settled recently on the Grasshopper, and has formed the nucleus for heavy settlements in that direction.

The season has been a lovely one thus far, and the little vegetation that the borderers allowed to be planted, promises an abundant crop. To pass over the Territory and see the fields overrun with weeds, which last year were covered with waving corn, and to know the cause of this desolation, is enough to sicken an American who looks out upon the scene.

Yours truly,
Kansas.

From Washington.

SUMMARY OF THE PROVISIONS OF THE PACIFIC RAIL ROAD BILL AGREED UPON.

Washington, July 19.

The special Pacific Rail Road Committee have agreed upon a bill, eleven members concurring, and Gen. Denver, the chairman, will report it on Monday, if he gets the floor. Three roads are provided for—one to be built north of the forty-fourth degree of North latitude, by the Northern Atlantic and Pacific Rail Road Company, of which Alexander Ramsey is president; one between the thirty-eighth and forty-fourth parallels, to be constructed by an association of all the roads now chartered and running westward through Iowa and Missouri, the junction to be formed Fort Kearney, and the single trunk to run in the navigable waters of the Pacific, in California; and the Southern Road is awarded to the Southern Atlantic and Pacific Rail Road, of which T. Butler King is President—a new Company, associated with the Atlantic and Pacific Rail Road Company, of California, the Texas Western Rail Road Company, and the Vicksburg and Shreveport Company. This line runs from the Mississippi, at some point south of the thirty-eighth degree, and runs to San Francisco, with a branch to San Diego, and with a grant of forty sections of land to the mile west of Texas to the California line, and then ten sections per mile to San Francisco. No grant is made for that portion of the road east of the western boundary of Texas. The Northern road receives forty sections from point to point; seventeen hundred miles. The middle road receives thirty sections until it reaches California, then ten sections to its western terminus. The provisions for mail pay are liberal. Telegraph lines are provided for on each road. The report of the committee will not be long, but clear and satisfactory. The bill will be put through without delay.

A Presidential Candidate Metamorphosed into a Platform.—Two old friends, who in former years had often stood shoulder to shoulder in the phalanx of the "Unterrified," happened to meet a few days since at Easton, Pa. After the usual greetings, some casual allusion to "Auld Lang Syne," together with a natural curiosity on the part of each to know the present political bearings of his old associate in these changeful days, led to the following colloquy.

"Well, Judge," says interlocutor No. 1, "where do you stand? You go for Buchanan, I suppose?" "Sir," replies the other, "there is no man living of whom I have thought more than Jim Buchanan—I should like to go for Jim Buchanan, and I *would* go for him if he were running; but as Jim Buchanan is not a candidate, I presume I must go for some one else." "Buchanan not running—how is that, Judge? I fear I am somewhat dull, and shall have to ask an explanation." "Why, it is plain enough, I said Jim Buchanan was not running, and I have his own words. Does n't he say so in his acceptance of the Cincinnati nomination? Doesn't he, in that acceptance, change, merge, and transmogrify himself *into a platform*? I tell you it is not Jim Buchanan, but the Cincinnati platform that is a candidate before the people, and as I don't like the platform, and have a fancy for voting for *a man*, I shall go for Fremont." "Give me your hand on that, Judge," was the enthusiastic reply, "I am right glad to find that we shall stand side by side once more, as we have so often done in the good old times;" and the two reunited friends went on their way rejoicing.—*N. Y. Tribune.*

The President's Organ Libels Mr. Marcy.

The Washington *Union* publishes a letter from Captain Schenck, United States Navy, asserting substantially that Col Fremont, so far from having done anything for the conquest of California, always came up too late, and was hardly within the smell of gunpowder during the whole war. In thus giving circulation and credence to this letter, the President's organ undertakes to prove Secretary Marcy anything but a man of truth. In his annual report of 1846, when Secretary of War, Mr. Marcy, in a most enthusiastic panegyric, makes Col. Fremont the conqueror of California; and we dare say that this official statement was carefully made up from the most reliable official sources of information. Marcy should call the President to account for thus permitting his organ to give credit and currency to a letter which attempts to prove the facts of the report of the Secretary of War of 1846 a string of falsehoods. Or will the Washington *Union* be good enough to publish Marcy's report of 1846, or deny it? Either Marcy or Schenck is wrong.—Let us know which.—*N. Y. Herald.*

Commencement—The State University.

THE EXAMINATION.

The examination of classes at the University commenced on Friday of last week, and closed on Monday. It embraced the whole course of study and instruction, and was very thorough and complete. The conduct of the students, and the mode of examination, proved abundantly that the training to which members of the University are subjected is one calculated to discipline the mind, and prepare it well for the duties of after life. The recitations were no parrot like repetitions of memorized facts, no exhibition of a mere routine drill, but an evidence that the pupils had mastered principles, and arrived at a thorough knowledge of the subjects of study.—To any who are disposed to ask what good the University is accomplishing, an attendance upon the recent examination would have been the sufficient and conclusive answer. With all the discouragements and opposition which it has had to encounter, the University may to-day invite the most searching scrutiny, and takes its place among those institutions of learning which have long been among the chief glories of our country. The accession to the Faculty during the past year was manifest in the examinations, as was to be expected, in the wider range of studies pursued and the more adequate treatment of all, which the former limited number of instructors absolutely forbade. The Faculty of our University is now, both as to numbers and qualifications, ample for the present wants of the institution, and parents may send their sons to it with the assurance that they will be educated as they should be.

JUDGE DOOLITTLE'S ADDRESS.

The annual address before the Athenean and Hesperian Societies of the University, was delivered last evening, the 22d inst, by Judge J. R. Doolittle, of Racine. His subject was a Review of the Progress of Civilization as exhibited in History. The house was filled with a large audience to hear him, and the address was well received.

COMMENCEMENT EXERCISES.

The Commencement Exercises to-day passed off in a very creditable manner. The procession was formed in front of the Capitol, at 9½ o'clock, under the direction of Gen. H. C. Bull, who performed his part in very handsome style, and proceeded to the Baptist Church in the following order:

1. Music.
2. Students of the University.
3. Chancellor and Chaplain.
4. Board of Regents.
5. Faculty of the University.
6. Governor and State Officers.
7. Justices of the Supreme and other Courts.
8. Mayor and Aldermen of the city of Madison.
9. Citizens and strangers.

The Church was well filled with spectators to witness the exercises of the occasion.

After a prayer by the Rev. Mr. Eggleston, original orations were delivered by the members of the graduating class, as follows:

Salutatory Address, in Latin,—James M. Flower.

Oration—the Great Republic—Burgess C Slaughter.

Philosophical Oration—Destiny—Samuel S. Benedict.

Oration—Civil and Common Law—James M. Flower.

Oration—the Age of Reason—with the Valedictory Address—Sidney Foote.

The addresses gave ample testimony to the thorough discipline to which the students in the University are subjected. They were well written and delivered in an effective manner.

The Baccalaureate Address by Chancellor Lathrop, which followed, was an elegant and scholarly production, worthy the source whence it emanated. It will doubtless be published at an early date.

The Degree of Bachelor of Arts was then conferred upon James M. Flower, Burgess C. Slaughter, Samuel S. Benedict, and Sidney Foote.

The Degree of Master of Arts was conferred upon Hon. A. L. Castleman of Waukesha.

This is the second class that has graduated from the University. The next will doubtless be much larger. There are now over a hundred students in the Institution, which number will be largely increased, in all probability, at the next term. We believe that no Institution in the West offers greater advantages to the student than the State University of Wisconsin; none where the rates of living and of tuition are less; none where the facilities for a thorough mental culture are superior.—*Madison Journal.*

Political Movements.

Washington, Friday, July 19, 1856.

The South Americans voted yesterday as a unit in favor of Allen and against Archer, in the Illinois Election case. They did so, although many of them had declared, after a full examination of the evidence, that the merits of the case were on Archer's side. They did so, although several of them, some weeks since, had promised to give their votes to Archer.

The Northern Fillmore men, with the exception of Harrison of Ohio, an old personal friend of Archer, and with the exception of Haven, who (*in medio tutissimus ibis*) voted against both Archer and Allen, co-operated with the Southern Fillmore men. Broom, Whitney, Valk and Moore of Ohio, all voted to keep Allen in his seat.

The special interest of the case arose from the fact that the Presidential vote of Illinois may be controled by it, if the election goes to the House. The Fillmore party, North and South, prefer, it is now evident, the election of Buchanan to the election of Fremont. The Fillmore and Buchanan parties are combined and confederated to put down Republicanism. The fact is so, and we must look it in the face.

When such men as Humphrey Marshall of Kentucky and Carlile of Virginia are found making speeches for Fillmore in *Pennsylvania* and *New Jersey*, their purposes cannot be mistaken. They mean to elect Buchanan.

The virulence of the Fillmore men against everything Republican is extreme. For example Carlile of Virginia, who had given assurances that he would not only vote but speak in favor of Mr. Bennett, contesting the seat of Mr. Chapman, the sitting delegate from Nebraska, upon learning that Mr. Bennett was a member of the Philadelphia Convention which nominated Colonel Fremont, declared that he would no longer support him.

Where there are three parties in the field, it is natural that the two weaker parties should co-operate against the strongest. Two months ago the Democratic party was the strongest—to-day the Republican party is the strongest. Hence the new aspects and affinities of parties.

In two months from this time we shall have nobody in the Free States supporting Fillmore, except men who are at heart for Buchanan. *Here*, in Congress and among the politicians, *the union is perfect between the Buchanan and Fillmore wings of the Pro-Slavery force.* But among the voting masses of the North there are thousands who now incline to Fillmore, who have no intention of upholding Slavery, and who will fall into the Republican ranks as soon as they see the bearing of events.

Missouri Border-Demons.

A correspondent writing from Kansas to the Cincinnati *Gazette* gives the following particulars of a shocking outrage perpetrated upon a Free State man:

"I heard to-day of an outrage which exceeds any that I have ever heard during the Kansas troubles. A man by the name of Richards, formerly of Ohio, residing on the Potawatamie Creek, in the southern portion of the Territory, having occasion to go to Westport, left home on Thursday last, with the understanding that he would be back in four days. During the first day of his absence, two men came to his house and enquired for him; finding that he was not at home they left, saying that they would call when he returned, his wife inviting them to do so, stating that he would be home in a day or two.

"About ten o'clock that night, after the family had retired, a knock was heard at the door.—Mrs. Richards asked what was wanted; the reply was, 'We want to see Mr. Richards.' She replied that he was not at home. They then commanded Mrs. Richards to open the door. 'He is a G—d d—d abolitionist; we must have him.' She again replied, 'He is not at home,' and refused to open the door. It was then broken open, and seven or eight men entered the room, and commenced searching it for Richards. Not finding him, they accused Mrs. Richards and her daughter, an intelligent young lady about 19 years old, of secreting him. The ladies, completely bewildered by terror, protested that they had told the truth, and that they had not secreted him—that he was really gone to Westport. One of their men then replied, 'Then, G—d d—n you, we want you,' and dragged the daughter from the bed, and from the house into the bushes close by, and there proceeded deliberately to violate her person. Her mother, Mrs. Richards, was treated in the same way, and both left for dead.

"How long they remained in the bush they were unable to tell, but they managed, finally, to reach the house where they were found by one of the neighbors the next morning, who, after providing for their personal comfort, immediately started to raise a company of men to pursue the villains. In an hour a company of terribly excited men were raised, numbering about 30, who under the command of Mr. Smith, started on the trail. They traced them to a camp of about 100 men, situated in a ravine some distance from the creek. Finding that they were not strong enough to fight, some of the company started for assistance, while others remained to watch their proceedings. The watchers were, however unfortunately discovered, and consequently had to leave, and by the time their comrades returned, the camp had been moved, and the ruffians escaped."

The Pass of the Sierra.

All night above their rocky bed
They saw the stars march slow,
The wild Sierra overhead,
The desert's death below.

The Indian from his lodge of bark,
The gray bear from his den,
Beyond their camp-fire's wall of dark,
Glared on the mountain men.

Still upward turned, with anxious strain,
Their leader's sleepless eye,
Where splinters of the mountain chain
Stood black against the sky.

The night waned slow, at last a glow,
A gleam of sudden fire,
Shot up behind the walls of snow,
And tipped each icy spire.

"Up, men!" he cried, "yon rocky comb,
To-day, please God, we'll pass,
And look from Winter's frozen home,
On Summer's flowers and grass!"

They set their faces to the blast,
They trod th' eternal snow,
And, faint, worn, bleeding, hailed at last
The promised land below.

Behind, they saw the snow-cloud tossed
By many an icy horn;
Before, warm valleys wood-embossed,
And green with vines and corn.

They left the Winter at their backs,
To flap his baffled wing,
And downward, with the cataracts,
Leaped to the lap of Spring.

Strong leader of that mountain band!
Another task remains,
To break from slavery's desert land
A path to Freedom's plains.

The winds are wild, the way is drear,
Yet, flashing through the night,
Lo! icy ridge and rocky spear
Blaze out in morning light!

Rise up, Fremont! and go before,
The Hour must have its Man,
Put on the hunting-shirt once more,
And lead in Freedom's van!

—*National Era.*

Milwaukee Female College.

Among the local matters for the week, the commencement exercises of this Institution have been of special interest and importance.

The exercises of the examination occupied two days, Tuesday and Wednesday.

On Tuesday evening an address was delivered before the Alumni of the College, in the North Presbyterian Church by Rev. W. S. Huggins of Kalamazoo, Mich. His subject was. *"The social life of the educated woman."*

He said the *importance* of the theme is seen, when it is considered, how great *a power Society* is among the powerful agencies of this present age, an age destined itself to be pre-eminently powerful for good or for evil. *Society*, as a theme in use in these days, has a meaning, which it never has had before. There is truth, as well as satire where Dickens, in one of the chapters of his *"Little Dorrit"* rings the changes upon this word *"Society."* Mr. and Messrs. Merdle, and all the magnates, Bar, Treasury, the Bishop, and even Fanny, the dancing girl, all recognize *Society* as a power supreme. There is truth in this. There is a power, beyond the individual, outside the family, and separate from the church. It cannot be ignored; it ought not to be undervalued. It should be made a power for good and not for evil. We need its aid,—in our own self culture,—in the training of the family, and as a reproducing agency,—the society of *the future* being the offspring of the society of *the present.*

As this power is the product of individual agency, there is, of course, an individual responsibility for its character and its influence. It would seem, however, that woman has more of responsibility here than man.

It is quite possible, that *he* is responsible for far more than he actually gives of his time and influence, to the inner circles of life; but nature has given *her* a peculiar power to move the secret springs by which society is moved.

As a matter of fact, certainly, woman's agency in society, is far more conspicuous and influential than man's, and hence, especially in an age like the present, the *social life of the educated woman* is a theme which should interest all, one certainly, which is worthy of her own most careful study.

Whatever power woman's nature has given her *education* brings this out most fully, and makes it most efficient, in exercise. In her education, *physical* and *moral* should be combined with *mental* training. She should be educated, not for this world only, but *for this* and *also* for the world *to come*: not to dress, and fascinate, and run a brief career at the party and in the ball room, and be an actress on the world's great stage, simply to please the lookers on,—but to think, to reason, to feel, and so to act as to accomplish the true ends of her existence. Follow such an one into *social life*, and how wide, how interesting, how important, the sphere in which she moves!

The following points were made in the development of the subject:

1. Let the educated woman enter upon social life, deeply imbued with the feeling that *duty* calls her thither.

2. Let her not only regard it as a part of her legitimate sphere, but be inspired to enter upon it as *a noble field of usefulness.*

3. Let her make her social life, in all its movements, *conform to the cardinal principles of truth, justice and benevolence.*

4. Let her give to all its movements *definite aim.*

Making such use of her woman's eye and woman's voice, the witchery of her hand, the stronger witchery of her heart, and of all the power which her education has given her, she shall find that the sum total of her social life, in results achieved, and good accomplished, will far exceed the sum total of a life devoted however successfully to business, or politics, or art, or science.

The Commencement Address was delivered by Rev. Dr. Chapin on Wednesday P. M., at 2 o'clock, at the College.

His subject was, "The true sphere of Woman, and the demands it makes for Woman's education."

In introducing it he raised the question as to the object, for which woman was given to man and to the world?

After giving the answers, which the Savage, the Oriental, the Ancient Greek and Roman, and the great world of Fashion, would return to such a question, he drew successive pictures of Woman as a sister, wife, mother, at home, and appealed to the spontaneous judgment of his audience, to determine where it is that woman finds her true sphere. He continued at some length to speak of the different aspects of domestic life, and their bearing upon the question of Woman's education.

He concluded by appealing to all engaged in it, and especially to the citizens of Milwaukee, to sustain this noble institution, at whatever cost or sacrifice.

It is a pity that there should still be a necessity for such appeals. When will the men of Milwaukee—our monied men especially—be wise enough to invest liberally in an educational institution?

Fremont in the North-West.

Stevens' Point, July 22.

Messrs. Editors:—I observed in your last the result of votes taken on boats and cars throughout the Union, and thought I would give you the result of one taken on the steamer "Northener" on her upward trip from here to Little Bull Falls, the other day, and for the truth of which I can vouch:

Fremont,	20
Buchanan,	2
No choice,	1
Not voters,	4

This is a fair sample of the public sentiment in this section of the country. Old Democrats, men who have voted every Democratic ticket from Jackson down, say they can't swallow Buchanan and *his platform.*

The Harvest.—The harvest of winter wheat is now in full progress. The weather is as cool and comfortable as old Sol ever permits at this time of year, when he is so far in the ascendant; the past week has been glorious for out of doors labor; dry, and pleasant enough to make the swinging of the scythe or cradle almost a pastime, and enabling the farmers to get their grain in without danger of injury. The quality of the winter wheat in this neighborhood is superb. We were shown a sample from the farm of Mr. D. C. Trippe, that was splendidly large and plump, and all the accounts we have heard agree in reporting favorably.

The yield in this neighborhood is equal to the quality, being the best known for three years. Spring wheat is doing well, though it is somewhat affected by the chinch bug and rust.

Corn is growing well, and we have been told that it will yield a hundred bushels to the acre.—*Whitewater Gazette, July 21.*

The Press and the Presidency.

The N. Y. *Herald* of Tuesday last contains a full list of all the papers received in exchange at that office, classified according to their present political standing and circulation. The summary is as follows:

	Newspapers.	*Circulation.*
For Fremont	189	524,968
For Buchanan	172	234,765
For Fillmore	58	95,391

Of these aggregates, Mr. Buchanan has 104 papers in the North and 68 in the South, all of which (save eight) were old democratic papers. Col Fremont has 183 journals North and 6 South, of which 82 have heretofore been Whig, 18 Democratic, 17 independent and 15 K. N.

The *Herald* accompanies these statistics with the following remarks.

We say, then, that these newspaper statistics furnish a striking illustration of the drift of public opinion. There is something so unusual and remarkable in the popularity of Fremont that there can be nothing less than a spontaneous popular revolutionary movement at the bottom of it. Mr. Buchanan is an old outstanding Presidential candidate—Mr. Fillmore is an old stager, and has been regularly before the people as a candidate for the succession since February. But a new man, outside of all the machinery of the old party scene shifters of the day—a man not dreamed of by the old mousing politicians of any party three months ago—is brought forward by a sort of popular spontaneous combustion, and in a single month he astonishes his enemies and surprises even his friends, with his wonderful speed, wind and bottom. It is not Fremont—it is a popular revolution that is thus stirring up the foundations of the great deep of public sentiment like a ground swell.

It is idle for the democratic journals to preach disunion—it is nonsense and humbug for Mr. Fillmore to recommend secession in the event of the election of Fremont. There is nothing of disunion in the position occupied by Col. Fremont—there will be no secession in the event of his success. The power which has brought him out is that of the independent people, in opposition to the demoralized and corrupting old spoilsmen of the Pierce, Jeff. Davis and Forney democracy; and there is a power at the back of this movement, which is destined to break up, disperse and destroy all the rotten machinery which remains of all the old worn out parties and party cabals and regencies of the country. This power is the independent press, which, starting here in New York some twenty odd years ago, has been gradually radiating in every direction, and acquiring strength from popular encouragement, until, sustained by the great active masses of the independent people, this engine of the independent press has displaced administrations, old party hacks, administration organs, and central cliques of party managers, and is felt by all parties as a power in the land.

The Fremont movement, therefore, being the movement of a popular revolution of the independent people of all parties, and the independent press, we are free to declare the opinion that the election of Fremont will be one of the most important, decisive, and wholesome results for the Union, the Constitution, and a purification of the festering sores upon the body politic, that will have occurred since the organization of the government. We believe in the intelligence of the American people, and are willing to follow them and to trust them, when they take a work of reformation in hand. Let this revolution, then, go on.

A Curious Revelation.

Governor Reeder, appointed Governor of Kansas Territory by President Pierce, was afterwards removed from that office by him, professedly because he had engaged in unlawful and improper real estate speculations. Every man of ordinary political sagacity knew at the time that this was a mere pretext; and that Gov. Reeder's removal was really effected by the Border Ruffians of Missouri, because the course he had taken interfered with the accomplishment of their plans. The authentic history of this transaction is given in another part of this morning's paper—as sworn to by Gov. Reeder himself, upon examination, before the Congressional Committee appointed to investigate the affairs of Kansas. It is a curious chapter of the secret political history of the times.

From this statement it appears that President Pierce informed Gov. Reeder, in a personal interview in the spring of 1855, that the most urgent demands had been made for his removal—and that "Gen. Atchison pressed it in the most excited manner, and would listen to no reasoning at all." He further assured him, after full explanations had been made, that he was perfectly satisfied that his purchases of town lots were all right, and that all his proceedings in Kansas met his entire approbation. At subsequent interviews he repeated these assurances—declaring his conviction that his whole course had been perfectly proper, and that the complaints brought against him were wholly without foundation.—But, at the same time, in consequence of the pressure upon him from Gen. Atchison and others, he desired Governor Reeder to resign his office.

He endeavored to work upon his fears, saying that it would be *unsafe* for him to return to Kansas, that his life might be taken, and that the whole North would be inflamed. Finding these hints ineffectual, and that Gov. Reeder would not resign, he then proposed to *remove him*, in a way to obviate all his objections, asking him to send him a memorial upon the subject, and promising, in his letter of removal, to place it entirely upon grounds of expediency, to exonerate him from all blame, to express the most unqualified approbation of his official conduct, and *to give him the Mission to China!* Finding that this last engagement could not be kept, in consequence of Mr. McLane's intention not to return, he promised to give him some other office, equally or more desirable. A good deal of time was consumed in these negotiations, the President himself preparing drafts of letters which he wished Gov. Reeder to sign, and the latter declining to sign them because they were evidently intended to put him in the attitude of consenting to his own removal. The result of the whole was a declaration, on the part of the President, that if he removed him it would be, not on account of his official action, but of his land speculations, those very acts of which he had previously expressed his entire approval.

In all this President Pierce was endeavoring to obtain a colorable pretext for doing an act, which his own judgement condemned, but which the Pro-Slavery propaganda required at his hands. Mr. Atchison had demanded Reeder's removal;—the President had promised it;—and the next question was, how it could best be done. He sought to intimidate—then to coax, and finally to bribe Governor Reeder in consenting to his own removal. This is but one of a thousand instances where the patronage of the Government has been used directly to promote the designs of the slaveholding interest. The disclosures made in this testimony of Gov. Reeder convict President Pierce of a degree of pusillanimous subserviency and of unprincipled treachery of which even his best friends hitherto have deemed him capable.—*N. Y. Times, July 22.*

New Wheat.—The Rochester *Union*, of the 19th, says: We were shown to-day a sample of new wheat cut this week at South Livonia. Its quality will compare favorably with that of any former year, and lovers of good bread may congratulate themselves that pure Genesee will be up to its old standard again if the weather continues favorable.

Land Warrants.—The Washington *Star*, of July 14 thus notices and quotes Land Warrants:

LAND WARRANTS

	Buying.	Selling.
160 acres	$0 93 per acre.	$0 95 per acre.
80 do	97 do	98 do
120 do	93 do	95 do
60 do	96 do	98 do
40 do	1 10 do	1 12½ do

Prices have advanced 2 cents per acre since our last report. It is now confidently believed that the bill pending before Congress to make land warrants receivable on reserved sections of railroad grants, and at the public land sales, will become a law this session. This belief has caused holders to decline selling at present rates, and has given it more of the character of a [illegible] market. We continue in the belief that warrants will [illegible] steady rise. Should the market reach $1 per acre, the limit put upon large amounts lying in the market, the supply must be in excess of the demand. We advise all who have warrants to send them to market, to be sold on the passage of the bill referred to, as we are confident prices will be higher immediately on its passage than at any subsequent period.

A HUMAN LIFE SAVED.

Dowagiac, Mich., March 11, 1856.

J. A. RHODES, Esq.—Dear Sir:—As I took your medicine on consignment, "no cure, no pay," I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received:

W. S. Conklin told me—"I had taken nine bottles of Christie's Ague Balsam, and continually ran down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors, too, did all they could for me, but thought I must die. Nothing did me any good until I got Rhodes' Fever and Ague Cure, which at once relieved me of the distress and nausea at my stomach and pain in my head and bowels, and produced a permanent cure in a short time."

H. M. Conklin says—"I had been taking medicine of as good a doctor as we have in our county, and taking any quantity of quinine and specifics without any good result from 25th August to 17th December. But seeing how nice it operated on my brother, I got a bottle of RHODES' FEVER AND AGUE CURE, which effected a permanent cure by using two-thirds of a bottle."

S. M. Conklin was not here, but both the other brothers say his case was the same as H. M.'s. I sold the medicine to both the same day, and the cure was as speedy from the same small quantity, and I might so specify.

Yours with respect, A. HUNTINGTON.

The above speaks for itself. Good proof as it is, it is of no better tenor than the vast number of like certificates I have already published, and the still greater amount that is continually pouring in to me.

One thing more. Last year I had occasion to caution the public in these words:

"*I notice one firm who have taken one of my general circulars, substituted the name of their nostrum for my medicine, and then with brazen impudence end their pamphlet with the exclamation, 'Let the proprietors of any other medicine say as much (if he dare),' &c.*"

Now I take pleasure in saying that the Caution referred to the name "Dr. Christie's Ague Balsam" that is mentioned in the above certificate.

There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague Cure, or Antidote to Malaria, except the Certificates of Cures, and the certificate of the celebrated Chemist, Dr. James R. Chilton, of N. Y., in favor of its HARMLESS CHARACTER, which is attached to every bottle. These will always serve to distinguish my medicine from imitations.

WE would recommend our invalid readers to give "Hoofland's German Bitters" a trial, as we feel assured a medicine that can produce such evidences as the following, in its favor is no humbug:

J. D. SPRING says:

Rockport, Monroe Co., N. Y., Feb 27, 1855.

"Send me a fresh supply of Bitters immediately. It gives the very best satisfaction. One gentleman had been troubled with Dyspepsia for a long time, and spent the most of last summer at a noted Water Cure establishment, but found no relief whatever, until he used the Bitters. *He is now entirely cured.*"

REV T P PFISTER says:

New Brooklyn, N. Y., 8, 1853.

Dr. C. M. Jackson—Dear Sir—I request you to send me by the first opportunity, three bottles of "Hoofland's German Bitters," and I am glad to state that the Bitters have cured different persons of my acquaintance, when physicians' help was without effect, especially in hemorrhoidal cases (bleeding piles,) the effect and cure was sure and certain.

Dalley's Medical Pain Extractor.

THERE never has been a discovery made in the Materia Medica, whereby pain can be so quickly allayed, and where parts in a high state of inflammation can be so rapidly reduced to their natural state, nor where wounds and sores can be so rapidly and thoroughly healed, and decayed parts restored without scar or defect, than with DALLEY'S MAGICAL PAIN EXTRACTOR.

In cuts, wounds, sprains and bruises—casualties to which children are so constantly subject—the action of the genuine DALLEY'S PAIN EXTRACTOR is ever the same! How much pain and suffering may not thus be prevented! Moreover, life itself is often dependent upon having on hand the genuine DALLEY EXTRACTOR, as for particulars of which I respectfully refer to my printed pamphlets, for the truth of which I hold myself responsible.

No cases of burns or scalds, no matter how severe, has ever yet, in any one instance, resisted the all powerful, pain-subduing and healing qualities of the DALLEY'S PAIN EXTRACTOR.

No PAIN EXTRACTOR is genuine unless the box has upon it a Steel Plate Engraved Label with the signature of C. V. CLICKENER & CO., proprietors, and HENRY DALLEY, manufacturer. Price 25 cents per box.

All should be addressed to C. V. Clickener & Co., 81 Barclay and 23 Greenwich street, New York.

Sold by all Druggists and Medicine Dealers throughout the United States. jy1d[illegible]

VOLUME XI. MILWAUKEE DAILY SENTINEL, FRIDAY MORNING, JULY 25, 1856. NEW SERIES.

THE DAILY SENTINEL.

Friday Morning, July 25.

CITY MATTERS.

POLICE COURT, JULY 24.

BEFORE CLINTON WALWORTH, POLICE JUSTICE

Yesterday morning there were still times in the Court, but the usual noise overhead, howevermuch disposed the Police are to conform to the wishes of the Police Justice and preserve order in Court, the "stars" above us set the rules of order at defiance, and in the *end have gained* the day, and the Chancellor has had to vacate the woolsack. No business was done.

We believe another room has been found, over the Watch House, on Wisconsin street.

CONCERT TO-NIGHT.—Madame ABLAMOWICZ offers a musical entertainment of rare attraction, at Young's Hall, *this* evening. She is herself a vocalist of rare gift, and sings both Ballads and Opera Music with equal skill and expression, and she will be assisted by her daughter, Mademoiselle IDALIA, and by her pupil, "La Petite Maggie." The Programme is rich in musical gems, of which "Casta Diva" and "Annie Laurie" may be taken as fair representatives. *The prices* of admission are, $1,00 for single tickets; $1,50 for tickets admitting two, and $2,00 for tickets admitting three persons; a liberal arrangement. The Concert is to be given at Young's Hall, and will be abundantly worth the hearing.

Madame ABLAMOWICZ has given some *twenty* concerts in Cincinnati within the past twelvemonth, and the following notice of the last, from the Cincinnati *Gazette* shows how highly she is regarded in that city:

> "A compliment, such as is not often received by vocalists, who have been frequently before the public in any city, was paid to Madame Ablamowicz, at her concert on Monday evening. That was, we believe, her twentieth appearance before a Cincinnati audience—the streets were muddy, the night dark, and a drizzling rain was falling—yet, notwithstanding all these circumstances, unfavorable as they were to a large attendance, the Music Saloon was full and crowded. Every one seemed delighted.

ANOTHER SUICIDE.—Yesterday morning, the body of a woman was found in the river, opposite Helfenstein's Warehouse, by the captain of a vessel. The Police were notified of the matter, and succeeded, after some time, in finding the name of the deceased, Christine Smith, a German girl, who was, up to Tuesday last, in service of a person named Tuttle, living on Main street.

Between 2 and 3 o'clock, Tuesday morning, the girl left Mr Tuttle's house, and was not seen again till her body was recognized, when laid out on the dock, yesterday.

A letter was found among her effects, in which she assigned, as her reason for committing suicide, bad treatment on the part of a lover. As her suicide was beyond doubt, no inquest was held.

She had been in this country about a year, and, we are informed, had frequently shown signs of insanity. She had no relatives in this country. Her body was given up to a man living on the west side of the river, for interment, who promised to bury it decently. The man was the only friend she seemed to have in this country.

At the time the news became generally known, yesterday forenoon, several persons were soon on the spot inquiring if it was a girl, very similar in appearance to the body found, who, about five weeks ago, had threatened to commit suicide, and had been turned away from one or two places, on account of manifest fits of insanity.

Seaman & Wing's Furniture Establishment.

MESSRS. SEAMAN & WING'S stock of home made Furniture, at their elegant stores, Nos 172 and 174 East Water street, is well worth the inspection of every one purchasing furniture for their dwellings, hotels, or at retail or wholesale. They have for several years been engaged in the business in this city, and have now on hand a mammoth stock of every description of furniture, trimmings, materials &c., and offer them wholesale and retail, at the very lowest prices.

The first story of the building contains an elegant show window, set out with beautiful specimens of different varieties of parlor and drawing room furniture, very handsome curtain fixtures, draperies, &c., as well as a large stock of cabinet hardware and upholstery goods for the trade.

The next story is richly carpeted, and displayed around it is every form of sofas, centre tables, bureaus, tete-a-tetes, easy and rocking chairs, of mahogany, rosewood, black walnut, full sets of bedroom furniture of every style, and from $60 to $200 per set, mammoth French plate pier and looking glasses, writing desks, escritoires, beau fetiers—each article of home manufacture.

The stores on East Water street contain a mammoth stock of the most elegant furniture ever exhibited in the West, while the different sets are so arranged upon a carpeted floor as to enable the purchaser to form a correct judgment as to how the furniture will appear when in his own drawing room, parlor or bedroom.

In order to keep pace with a rapidly increasing trade these gentlemen are erecting on two lots running from Main to Milwaukee street, a large factory, wherein they will soon commence the manufacture of every article they offer for sale. The building, when completed, will be 254 feet in length by 30 in width, 3 stories high—the centre part will be arched over the alley running between the two blocks and will be of brick for the engine and boiler room, and will be 30 by 25 feet. A portion of the building on Milwaukee street has been commenced some time; the frame, 30 by 80 feet, 3 stories high, was raised last week and is now being enclosed. In this part of the building will be the machinery, which will cost at least $6,600, and embrace every modern improvement.

The brick building will contain an engine costing $1,500, and the boiler &c. costing $600, the other machinery will cost an additional $1,800, making in all $9,000 for machinery. When in full work they will employ 300 mechanics and laborers, and will cut up for manufacturing purposes 3,000 feet of lumber per day.

Their aim is to dispense entirely with eastern made furniture, to encourage home industry, to employ Milwaukee mechanics and to turn out an article of Milwaukee furniture that shall be acknowledged, on comparison, to be superior to anything made east, for a western market, and at a far less price.

In addition to their stores and their factories, they are preparing to build, on Huron street, next to Davis' Livery Stables, a block of Furniture Warerooms, in which whole sets of furniture will be continually kept, ready for forwarding at the shortest notice.

A visit through their stores at Nos. 172 and 174 East Water street, will repay any one from the country as a sight worth seeing, and an inspection of their furniture and prices will satisfy any one of the truth of our statement.

JOHN HALIFAX, GENTLEMAN. A graphic and very readable novel, by the author of "The Head of the Family," and "Olive." It is published as No. 201 of Harper's Library of Select Novels, and deserves the distinction. For sale at WILSON'S.

NEW SCHOOL HOUSE.—We saw yesterday, at the rooms of Boyington & Mix, Architects, in Ludington's Block, a plan of the new Public School or the Seventh Ward. The building is to be of brick, with stone quoins at the corners for the first floor, three stories high, with bell and clock tower 75 feet high, rising 25 feet above the roof. The dimensions of the building will be 59 by 78 feet on the ground, and 50 feet from the ground to the eaves. In each story there will be one very large room for the pupils and three recitation rooms, with closets for hanging up hats, shawls, &c. There will be a separate entrance for each story and great pains have been taken to ensure perfect ventilation. The plans and specifications for the building have been very carefully drawn and the elevation is remarkably handsome. The building, when completed, will be an ornament to our city. It is to be erected on Jefferson street, during the present season, and is already needed to accommodate the rapidly increasing number of applicants for admission into our Public Schools.

THE HEAD FOUND IN THE RIVER.—The account in the *Sentinel* of Wednesday, of the finding a person's head in the river, and the clothes of some person near the Ship Yard, was *strictly true*, as published. We repeat this statement, from the fact that many have been led to the belief that the matter was got up and published for a hoax.

HORTICULTURAL EXHIBITION.—The exhibition of our Milwaukee Horticultural Society, at Young's Hall, yesterday afternoon and evening, was rather meagre, as to Fruits and Flowers, but rich in Vegetables. The show of Beets, Cauliflowers, Cabbages, Onions, Turnips and new Potatoes, was uncommonly fine. The attendance of citizens was fair, but not equal to the deserts of the Society.

FOR BUFFALO.—The propeller *Neptune* will leave for Buffalo this evening. Those desirous of securing a passage should make early application to John Griffin, Agent, on Huron Street, near the American Express Co's office.

FURNITURE.—Mr. W. Hutchins, of Chicago invites attention, through our advertising columns, to his stock of furniture, of all qualities and prices.

NEW YORK PAPERS.—We were again indebted yesterday morning to McSorley of the News and Intelligence Office, East Water street, for the New York *Tribune* of Tuesday morning. Getting New York papers in *two* days is certainly a luxury.

"ANNIE LAURIE."—Madame ABLAMOWICZ will sing to-night, among other gems, this beautiful Scotch Ballad, now irrevocably linked with the name and memory of Sebastopol.

FOR COLLINGWOOD.—The staunch steamer *Niagara*, Capt. Miller, leaves Higby's Pier, *this* Friday morning, at 8 o'clock, for Collingwood.

ACCIDENT.—The wife and sister of Mr E L Button were thrown from a buggy, on some timbers, on East Water street, Wednesday afternoon, and Miss Button was quite badly bruised about the face.

RETURNED—The Rev Dr. ARNETT, Rector of St. Paul's Church in this City, returned in the steamer *Niagara* from a six months' tour in Europe and has reached home in health and safety.

GREAT SALE OF CLOCKS.—WALL will commence selling this morning, at the City Auction Store, a very large assortment of Clocks of all sizes, patterns and prices. See his advertisement.

CALEB WALL.

City Auction Room.

TIME! TIME! TIME! is the order of the day. Let any one look at the division of time, and he will not be satisfied until he purchases a time piece. I would just as soon think of living without pieces of money in my pocket as to live without time, and what is time but a little bubble floating in the air, and when that bubble explodes you should know the time, and how you can get at time.

Answer—Go to CALEB WALL'S, at the City Auction Room, at 10 o'clock, and purchase the movements of time. He has them there by the hundred, and he will sell them to those who are in time.

I HAVE TWO HOUSES for sale or rent on Jackson street. They are in first rate order, with double parlors, dining room, &c., ten rooms in each house, situated in the central part of the city. The houses are framed, filled in with brick. I will sell them on very easy terms, giving a credit of six or seven years, with seven per cent interest. The first payment may be five hundred dollars. If they are not sold by the first of August, I will rent them until the first of May next.

I have also a magnificent three story Brick House, entirely new, with some 20 rooms, finished in good style, with *one* acre of ground, being very handsomely laid out into a garden, situated on Lake Shore.

The view from it is not to be surpassed in the world, (scarcely,) the house is very richly furnished throughout. I will sell the house, and acre of ground, and furniture, at a great bargain.

If not sold within a short time, I will rent buildings, furniture and all until first day of May next.

WEST'S

Patent Galvanic Cement for Roofing

THE ATTENTION of Architects, Builders, and the public generally is invited to this roofing—as being far superior to other compositions in use for like purposes. In fact, we think it superior to any other Roofing, for it has more essential qualities combined required for roofing, than any other material used, viz Imperviousness to water, incombustibility, durability and cheapness. It is Fire and Water proof, and can be applied to flat or steep roofs. In its texture and appearance it resembles slate—will not soften and run in the warmest weather, nor become hard and crack in the coldest.—Therefore it forms a good walk on piazzas, flat roofs, car tops, steamboat decks, &c. Its fire proof qualities particularly adapts it to Railroad buildings, engine shops, &c. It is especially adapted to repairing old roofs, seaming around battlements, sky-lights and chimneys, and for lining eave troughs, &c.

This roofing is being extensively used in the Eastern States on the most expensive buildings. Testimonials may be seen from the owners of buildings, Builders and Architects, and also specimens by calling at the office.

The subscribers own the right for the State of Wisconsin, and will sell territory by counties or towns, on favorable terms.

For further information apply at the office of the subscribers, Architectural room of Mygatt & Schmidtner, corner West Water and Spring streets, or to J. Y. Cheney, one of the proprietors, No. 4 Market Square.

THREE P. M. REPORT.

Correspondence of the Herald.

Washington, July 23.

I learn that Mr. Burlingame did not insist on the *Canada side as his ultimatum*, but that he had decided on that region as a place where the difficulty could be arranged satisfactorily, without interruption; but as Burlingame wished to avoid arrest, he took a carriage immediately after sending his reply to Brooks, and met the Northern train 10 or 12 miles from Washington, supposing it would be *satisfactory*. He did not wait to ascertain whether Brooks was willing to go 700 or 800 miles into an enemy's country at this season of the year on a target excursion. Impressed by what I hear that Mr. Burlingame is desirous of satisfying Brooks in any way, I presume it will be arranged for them to meet somewhere south of the Canadian line, but at a respectful *distance* from the District of Columbia. There is a report that Brooks intends to challenge Mr. Burlingame on his return.

New York, July 24.

Advices from Havana state that the ex-President of St. Domingo, Gen. Boyer, sailed from that port on the 12th inst., for St. Thomas, from whence he intended to make a descent upon St. Domingo.

Congressional.

Washington, July 23.

SENATE.—The Senate proceeded to the consideration of the bill authorizing the *protection of* the citizens of the United States who may discover Guano.

The bill was passed. It provides that whenever any citizens of the United States shall discover *new guano islands, &c.*, not occupied by persons of any other Government, and occupy the same, they shall be considered as appertaining to the U. S.

The land and naval forces of the country are to protect such islands and the laws of the United States are to be extended over them. The bills *for the improvement of the harbors of* Milwaukee and Kalamazoo, and the bill for the improvement of the harbor at the mouth of Grand River was discussed until the adjournment.

HOUSE.—Mr. Carver offered an amendment to the Kansas bill, declaring that no part of the U. S. military force is to be employed in Kansas till *the code of alleged laws* be declared legal, nor any citizens be required to act as a posse for the Marshall or Sheriff of the Territory.

A warm debate ensued, Phelps, Florence, Stephens, Whitfield, Cox, Kennet, Quitman, Seward, Wilson and others speaking in opposition to it, and Sherman, Cumback, Weightman, Simmons, *and others favoring it.*

Stanton moved an amendment declaring the Laws of Kansas *null and void*.

Agreed to—87 to 56.

Mr. Carver's resolution thus amended, was adopted, 72 to 57.

The House has yet to vote on the act.

Mr. Washburne, of Maine, from Committee on Elections, reported a resolution declaring Whitfield not elected to a seat from Kansas, and Reeder be admitted as a delegate. He gave notice to call up the resolution next Wednesday. Recess until 7 o'clock.

HOUSE.—A call of the House was taken, in order to procure a full attendance of Members, of whom 140 only were present. The doors were closed to prevent excuses from absentees. None was offered for Mr. Burlingame.

An hour and a half was thus consumed, when the House went into Committee of the Whole on the army report.

Washington, July 24.

Boston, July 24.

The American state convention for the nomination of candidates for Governor and President tial electors, met at Faneuil Hall at 12 o'clock to-day. The attendance was quite large. Upon a call for the nomination of a temporary chairman, much confusion ensued, in which the names of Mr. Farwell, of Boston, Mr. Fletcher of Lowell, Mr. Colt, of Pittsfield, and others were heard. The chair stated that he first heard the name of Mr. Fletcher, and put it. He decided the motion lost. A count was then called for, and the vote taken rising. When the chair said 347 had voted to sustain the nomination of Mr. Fletcher and 241 opposed it. These results were claimed as a victory by the Fremont men, who loudly cheered, while the Fillmore men hissed, and called for a division of the house. Mr. Fletcher was finally declared elected temporary chairman.

New York, July 24.

Commodore Stockton has written the following declining the nomination for the Presidency, tendered him by the seceders of the American Convention in this city:—"Our efforts to prevent the great American party from being sectionalized or abolitionized, have been successful. It has been purged of sectional and abolition men and dogmas. The national camp has endorsed Mr. Fillmore's Americanism, and he is pledged to uphold the integrity of American principles, and the perpetuity of our organization. My object has been obtained, and I am no longer a candidate for the Presidency."

PATENT SHINGLE MILL

EVARTS & BUTLER,
PROPRIETORS & MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives great speed of execution; and the flexibility of the chisel plan width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

TURTON & SERCOMB,
296, 298, 300, 302 and 304 West Water St.

IS STILL IN FULL BLAST, WORKING DAY AND night to supply the daily increasing wants of the Badger and other States.

In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of —— horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never were in a better position for doing business, and

in any department.

In regard to the character of the work got up by this

The Oldest Establishment in the State

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both Practical Mechanics, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as Guages and Cylinder Cocks, Oil Cups and Cocks, and Steam Whistles. Also Turton's Files, which they will sell at the lowest cash price.

They are also Agents for Eastman's Patent Steam Guages, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "*Excelsior.*"

F. M. LANE'S
PERMANENT GLOSS PAINT.

Important Improvement in Painting!

A PERMANENT GLOSS PAINT for interior work has long been a desideratum. All paints prepared from Linseed Oil, will rapidly turn from the lightest and most opposite tints to the yellow color of the oil itself; the change being the more rapid as the paint is excluded from the full light of day.

The subscriber, after a sufficiently long experience in its use, can recommend it as the only Gloss Paint in which this important defect is effectually remedied. This beautiful paint can be applied of any color, from the purest white, resembling enamel or porcelain, to all the different varieties of tints, suitable for private dwellings, Churches, Hotels, &c., whilst in brilliancy and richness of surface it surpasses all other paints; it possesses superior advantages in retaining permanently even the most delicate colors with which it is combined.

Also, Plain and Ornamental Painting, decoration of Private Dwellings, Churches, &c., Sign and Fancy Painting.

PINNEY YOUNGS' PATENT SAWING MACHINES.

PATENTED JANUARY 30, 1855.

THESE CELEBRATED SIDING MACHINES are the only Machines that do or can cut both ways, and thus avoid loss of time in gigging back. They cut with ease, when properly attended, Fifteen Hundred Feet per Hour. They are not more complicated, nor more likely to get out of repair, than any other Siding Machine. A Machine on this plan for sawing wide lumber in connection with an upright saw for slabbing the logs, will excel anything in existence. We have sold a large number of the Siding Machines, all of which have given the most perfect satisfaction. They are

MANUFACTURED ON THE WATER POWER, IN THE CITY OF MILWAUKEE,

Under the supervision of the inventor, where Machines may be obtained, on application to

PINNEY YOUNGS & CO.

We subjoin the following Testimonials of the estimation they are held in by purchasers:

MANISTEE, MICHIGAN, October 1st, 1855.

PINNEY YOUNGS & CO.:

Gentlemen:—In answer to your inquiry as to how I am pleased with the Siding Machine of Pinney Youngs' Patent you sold me, I can truly say it is better than recommended. It far exceeds my expectations. To give you an idea of what can be done with it, I will give you an account of a few hours sawing: It cut in four hours and twenty minutes, Eight Thousand Nine Hundred and Fifty Feet of Lumber, superficial measure, and that in the most perfect manner.

Yours truly,
(Signed) SAMUEL POTTER.

MILWAUKEE, March 20th, 1856.

We have one of "Pinney Young's Patent Sawing Machines" in operation, and would say that it is all that it is represented to be, and gives perfect satisfaction.

MEDICAL.

DR. WEAVER'S
CANKER & SALT RHEUM SYRUP & CERATE.

IT IS AN UNDISPUTABLE FACT THAT the above medicines are the only *infallible remedies* now before the public for cutaneous Eruptions, Salt Rheum, Erysipelas, *Sore Legs*, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c., &c.

Cases that the most eminent Physicians have despaired of relieving, immediately yielded to their active powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the sufferer without a blemish. These medicines are too well known to require anything more than a plain statement of facts. The joyful intelligence is echoing daily from East, West, North and South, of wonderful cures they are preforming.

See what is said by those who have used these medicines:

The Rev. Samuel Henry, *of Palmer, Mass.*, says, "they have done me more good than all the other medicines I have used for Erysipelas."

Capt. William Vail, of the steamer Granite State, says: "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores; is now perfectly cured by the use of the Syrup and Cerate."

Dr. A. J. Johnson, of North Wardsboro, Vt., says, "a Scrofulous disease of the hip joint, and Scald Head in the same child, have been cured by the Syrup and Cerate."

Rev. August Bolles says "it has cured the Salt Rheum in my leg."

J. Hatfield Frazer, Esq., editor of the Somerset Whig, Somerville, N. J., says "my mother has been completely cured of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."

Hon. Joel Loomis, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a council of the best Physicians in the County had pronounced the disease incurable, (at my age which was seventy-eight years, but Weaver's Syrup and Cerate did the work at once."

Elias Latham, Esq., of Orient, Long Island, N. Y., says, "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Brooklyn and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the sprightliest man on the Island."

The Rev. J. S. Swan, of New London, says, I have used the Syrup and Cerate in my family for more than a year and I consider it completely adapted to sustain the high reputation that is claimed for it. I have seen it used in a number of cases for Salt Rheum and Erysipelas, with entire success.

Ask Seth Frisbery, of Taunton, Mass., what the medicines will do; ask William Barber, of Three Mile Bay, Jeff Co., N. Y., what the syrup has done for him; ask G. F. & W. H. Boynton, of Perkinsville, Vt.; ask F. L. Kent, of Chicago, Ill; ask Martha Cottle, of Martha's Vineyard, Mass; ask Wm F. Keables, or Wm P. Benjamin, Esq., of New London; ask Dr. H. M. Murdock, of Pulaski, N. Y.; ask J. O Smith, of Brooklyn N. Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate; ask Curtis Burrough, of Shelby, N. Y., who has been cured of a severe case of Salt Rheum; ask Chas. Akin of Hume, N. Y., what the Syrup and Cerate will do for sore legs; ask Winslow and Slafter, Merchants, Virgil, N. Y. what it will do for Fever Sores. In a word, ask every body who has ever tried these wonderful medicines, and the answer will be the same—THEY CURE.

TO THE MILLION!

READ AND JUDGE FOR YOURSELVE

PROFESSOR WOOD'S Hair Restorative is no doubt the most wonderful discovery of this age of progress, for it will restore, permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald head, &c. It will cure as if by magic, nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. *See circular and the following*:

CARLYLE, Ill., June 29, 1855.

I have used Prof. Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought prematurely grey; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 10, 1852.

Prof. O. J. Wood: Dear Sir—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully yours,
WILSON KING.

A gentleman of Boston writes to his friends in New Bedford, thus

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I had used the second bottle up (which was eight weeks) my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots, and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish or ask.

July 1, 1854. Yours, &c., —— ——.

GARDINER, Me., June 22, 1855.

Mr. Dyer: Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as grey as a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, &c.,
DANIEL N. MURPHY.

ST. LOUIS, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular medicines of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted.

A. C. WILLIAMSON,
122 Second Street.

ST. LOUIS, June 22, 1852.

Prof. Wood:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months ago, very grey; and after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

I am, sir, yours, &c.,
H. L. STEWART.

HELMBOLD'S GENUINE PREPARATIONS

HELMBOLD'S HIGHLY CONCENTRATED
Compound Fluid Extract Buchu.

A CERTAIN, safe, and effectual remedy for Diseases of the Bladder, Kidneys, Gravel, Dropsy, Obstructions, Female Complaints, and all Diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated, and no matter of how long standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very roots of the disease, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure certain and permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This infallible remedy has saved thousands from the hands of merciless quacks, if not from premature graves. In cases of infections, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing safe cures. It contains no narcotic, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex, without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them; DELAYS ARE DANGEROUS. With this medicine you can cure yourself, and thus prevent all exposure.

Truth must and will prevail. This medicine speedily and effectually cures the most virulent form of secret disease, and eradicates every particle of infectious matter from the system, restoring the patient to a perfect state of health and purity. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found, it acting both as a cure and preventive of any of the above ailments.

HELMBOLD'S HIGHLY CONCENTRATED
Compound Fluid Extract of
SARSAPARILLA.

For purifying the Blood, removing all diseases arising from excess of Mercury, exposure and imprudence of life, chronic constitutional disease, arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all Scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed: whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and of Buchu, and various modes of preparing them have been given, all of which of course, will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation and the employment of different menstrua in successive operation to take up the extractive matters and in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations.— It is, therefore, of the highest consideration and importance to the public and to the faculty that there should be standard preparations of uniform strength and possessing the most advantages. To effect this and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two tablespoonfuls of the Extract Sarsaparilla added to a pint of water, is equal to the Lisbon diet drink, and one bottle is equal to a gallon of Syrup Sarsaparilla as usually made.

PRICES.

Fluid Extract Buchu,	$1 per bottle or 6 for $5

Certificates of cures and recommendations from distinguished professors and physicians will accompany each preparation. Prepaid and sold by
